

■ How the Anywhere Process Works:

1. Client submits application

Client submits application at moxianywhere.com, pays the **\$149 application fee**, and uploads required documents:

- Legible **passport** for each borrower
- First two pages of **latest filed federal 1040** (proves U.S. taxpayer status)

2. Best practices to improve approval speed:

- Upload **existing purchase agreement or deed**
- Upload **complete asset statements** showing 1.5x–2x loan amount in reserves
- Upload **complete checking account statement** with full name(s) and account number (this is where proceeds will be deposited)
- Fully list all **assets** (401k, IRA, brokerage, etc.)
- Accurately list **gross monthly income** from all sources (not net)

3. MoXi® initiates:

- **Soft-pull credit** – Does not show as inquiry on credit report
- **FraudGuard check**

4. Next steps:

- Application is reviewed
- **Term sheet** issued (with proposed rate + fees)
- **CLA** may be issued simultaneously

5. If client accepts:

- MoXi® completes **hard pull of borrower credit report (will reflect as an inquiry)**, identity verification, UW conditions, digital doc signing, etc.
- **Loan is funded** to client's U.S. checking account

Client FAQs

What happens after I apply?

After you submit your application along with the required fees and documents, MoXi® conducts a soft credit pull (which won't affect your credit score) and a fraud screening to verify your identity. This helps us quickly determine preliminary eligibility.

Do I need to pay the application fee?

Yes. The **\$149 fee (plus payment processing of 2.99%) is non-refundable (\$153.49)** and covers the initial soft credit pull, fraud screening, and initial processing.

Can I apply just to get prequalified while shopping?

Anyone is welcome to apply for any credit product from MoXi anytime without restriction. We do not discourage anyone from applying for credit. However, Anywhere is **not typically appropriate as a prequal product**. Approval duration is short-lived. We might generally suggest an applicant apply **when closer to needing funds** as approvals expire quickly, and a purchase agreement or deed are required to fund.

Funding can happen within 48 hours, but usually occurs within about 1 week.

A **purchase agreement or deed** (proof of contract/ownership of property outside the U.S.) is **required**.

What can the funds be used for?

Anything. There are **no restrictions** on how clients use the funds.

A property outside the US must be **already owned or under contract** at the time of application, but funds are **not tied** to the property itself.

How quickly are funds received?

Most borrowers receive funds **within 1 week** of application.

Some fundings occur in as little as **48 hours**.

Will the loan report to U.S. credit reports?

Yes. Anywhere loans are reported to U.S. credit bureaus as installment loans.

Is there a prepayment penalty?

No. Clients may repay early at any time without penalty.

Is collateral required?

No. The loan is unsecured, based on the borrower's personal guarantee.

What are the basic eligibility requirements?

- Must be a **U.S. taxpayer (US Citizen or Permanent Resident)**
- Must have a **U.S. checking account**
- Must provide a **passport** and **filed 1040 US Tax Return**
- Must **already own** or be **under contract to purchase** property **outside the U.S.**
